Multimodal Transport

(Course available online & in -person, part time)

## Focused Subject/Learning Area: Multimodal Transport Operations

### Overall Learning Outcome/Objectives.

<b>Subject: Multimodal Transport Operations</b>	
<u>Learning Outcome /Objectives: -</u> On completion of these lessons, Students/ learners should be able to: -	
A.	Define the term “Multimodal transport”
B.	State the advantages of multimodal transport for forwarders
C.	Describe the different forms of multimodal transport operations and operators
D.	State the relationship of a Multimodal Transport Operator (MTO) with the intervening parties
E	Describe the scope of services covered by an MTO

### Learning Area: Aim

Create basic awareness about Multimodal Transport Operations creating the ability of students/learners to effectively participate in the total Logistics business environment and guidance for the examination.

### Learning Area: Objective.

- On completion of this chapter, you should be able to:
  - Define the term “Multimodal transport”.
  - State the advantages of multimodal transport for forwarders.
  - Describe the different forms of multimodal transport operations and operators.
  - State the relationship of a Multimodal Transport Operator (MTO) with the intervening parties.
  - Describe the scope of services covered by an MTO.

## Table of Contents

<b>Multimodal Transport Operations</b> .....	4
<b>1. Introduction to Multimodalism, Multimodal Transport and Intermodalism</b> .....	4
<b>1.1. Fundamentals of Multi-Modal Transport</b> .....	4
<b>1.2. Multimodal Transport</b> .....	4
<b>1.3. Multimodal Transport Operator</b> .....	6
<b>1.4. Multimodal Transport Handling by MTO</b> .....	6
<b>1.5. Intermodal Transfer</b> .....	6
<b>1.6. Modal Interfaces and Handling</b> .....	7
<b>1.6.1. Modal Interfaces</b> .....	7
<b>1.6.2. Handling at Modal interfaces</b> .....	7
<b>1.7. The Components of Multi-Modal Infrastructure</b> .....	8
<b>1.8. Criteria for Evaluation of Multimodal Services</b> .....	8
<b>1.9. Advantages of Multimodal Transport</b> .....	8
<b>2. Intermodal Systems, Forms of Multimodal Transport Operations</b> .....	10
<b>2.1. Basic Intermodal Systems</b> .....	10
<b>2.2. Forms of Multimodal Transport Operations</b> .....	10
<b>2.2.1. Land-Sea-Land</b> .....	10
<b>2.2.2. Road/Air/Road</b> .....	10
<b>2.2.3. Sea/Air/Sea</b> .....	11
<b>2.2.4. Rail/Road/Inland Waterways/Sea</b> .....	11
<b>2.2.5. Ro-Ro (Roll on –Roll off)</b> .....	11
<b>2.2.6. Piggyback</b> .....	12
<b>2.2.7. Sea train</b> .....	12
<b>3. Multimodal Transport Operator (MTO) and the Relationship with the Intervening Parties</b> .....	13
<b>3.1. Intervening Parties</b> .....	13
<b>3.2. MTO and Relationship with the Intervening Parties</b> .....	13
<b>4. The Scope of Services Covered by an MTO</b> .....	14
<b>5. Further/Extra Notes</b> .....	15
